Report on review of interim condensed consolidated financial information

To the board of directors of
Sanam Real Estate Company – KPSC
Kuwait

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Sanam Real Estate Company – KPSC (the “Parent Company”) and Subsidiaries (collectively the “Group”) as at 31 March 2023 and the related interim condensed consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the three-month period then ended.

Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity.” A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, “Interim Financial Reporting”.

Emphasis of matter

We draw attention to Note 7 to the interim condensed consolidated financial information which describes that the valuation carried out for the right of use land, for purpose of the impairment assessment at 31 December 2022, is based on fact that the Group will renew the right of use land lease contract for a further 30 years upon expiry of the lease contract in 2039. Though the management intends to develop the property and renew the lease upon expiry, the renewal itself depends upon the approval of such renewal request by the relevant authorities. The ultimate outcome of the said renewal cannot be determined presently and consequently no adjustments have been done to the carrying value of the right of use of land. Our conclusion is not modified in respect to this matter.

Report on other legal and regulatory requirements

Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016 and its executive regulations, or of the Parent Company’s Memorandum of Incorporation and Articles of Association, as amended, have occurred during the three-month period ended 31 March 2023 that might have had a material effect on the business or financial position of the Parent Company.

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any material violations of the provisions of Law No. 7 of 2010 concerning the Capital Markets Authority and its related regulations during the three-month period ended 31 March 2023 that might have had a material effect on the business or financial position of the Parent Company.

For further details, refer to the Group’s consolidated financial statements and its related disclosures for the year ended 31 December 2022.

Notes to the interim condensed consolidated financial information (continued)

3 Changes in accounting policies

3.1 New and amended standards adopted by the Group

The following new amendments or standards were effective for the current period.

<i>Standard or Interpretation</i>	<i>Effective for annual periods beginning</i>
IAS 1 Amendments- Disclosure of accounting policies	1 January 2023
IAS 8 Amendments- Definition of accounting estimates	1 January 2023

IAS 1 Amendments – Disclosure of accounting policies

The amendments to IAS 1 require entities to disclose material accounting policies instead of significant accounting policies. The amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial.

The adoption of the amendments did not have a significant impact on the Group's interim condensed consolidated financial information.

IAS 8 Amendments – Definition of accounting estimates

The amendments to IAS 8 inserted the definition of accounting estimates replacing the definition of a change in accounting estimates. Accounting estimates are now defined as monetary amounts in financial statements that are subject to measurement uncertainty.

The adoption of the amendments did not have a significant impact on the Group's interim condensed consolidated financial information.

4 Judgement and estimates

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2022.

On 10 May 2005, one of the subsidiary's of the Group signed an agreement with the owner of the concession to lease part of a land in Al Jaddaf, Dubai (on a Build-Operate-Transfer (BOT) basis), owned by the Dubai Municipality – Department of Dubai Train. The lease period is 30 years commencing on 9 September 2009. The Group paid an amount of AED105,000,000 (equivalent to KD8,319,004) in full in previous years for the lease.

The cost of this lease is being amortized over the lease period which ends on 8 September 2039.

Notes to the interim condensed consolidated financial information (continued)

7 Right of use of land (continued)

At 31 December 2022, the land was evaluated by an authorized independent valuer in the United Arab Emirates and the value amounted to AED15,000,000 (equivalent to KD1,251,056) as at that date, and this value was determined by the valuer on the assumption that the BOT period will be renewed for an equal term of 30 years on its expiry (which is after 17 years on 8 September 2039). In order to arrive at the market value of the property, the valuer has adopted the residual approach, which involves the calculation of the Gross Development value (GDV) of the proposed development (construction of Hotel apartment buildings) assuming it is complete and discounting the GDV at an appropriate discount rate for the period of construction. The construction costs of the proposed development are assumed and deducted from the GDV to arrive at a residual value of land. When calculating the GDV due from holding the completed development (during the BOT and renewal period) less the development costs, several key assumptions have been made by the valuer which includes, among others, the renewal of the BOT agreement for another 30 years at expiry (at the original cost of AED 105,000,000), total built floor area for the proposed Hotel apartment (448,939 Square feet), expected cashflows from the proposed development, cost of construction per square foot (AED 275), construction period (2 years), discount rate (9%), and developers profit rate (5% of GDV). The valuer has used the residual approach due to lack of comparable evidence and transactions for the land. Based on the valuation carried out by the independent valuer, during the previous year, an amount of KD1,180,222 was recognized in the consolidated statement of profit or loss and other comprehensive income as impairment in value of right of use of land.

The Group intends to develop the above land according the concession agreement and intends to renew the right of use land agreement on its expiry for another 30 years, as such renewal is in line with industry practice.

16 Fair value measurement

16.1 Fair value hierarchy

Fair value represents the price that would be received to sell an asset or paid to settle a liability in an orderly transaction between market participants at the measurement date.

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

16.2 Fair value measurement of financial instruments

The carrying amounts of the Group's financial assets and liabilities as stated in the interim condensed consolidated statement of financial position may be categorized as follows:

	31 March 2023 (Unaudited) KD	31 Dec 2022 (Audited) KD	31 March 2022 (Unaudited) KD
Financial assets:			
Amortised cost:			
Cash and cash equivalents	1,233,732	681,647	571,856
Accounts receivable and other assets (excluding prepaid expenses and advance payment)	115,231	731,660	790
At fair value:			
Financial assets at fair value through profit or loss	282,829	282,829	3,366,424
Financial assets at fair value through other comprehensive income	66,250	66,250	-
	1,698,042	1,762,386	3,939,070
Financial liabilities:			
At amortised cost:			
Accounts payable and other liabilities	68,597	133,403	97,810
	68,597	133,403	97,810

Management considers that the carrying amounts of financial assets and liabilities, which are stated at amortized cost, approximate their fair values.

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets and liabilities measured at fair value on a recurring basis in the interim condensed consolidated statement of financial position are grouped into the fair value hierarchy as follows:

Measurement at fair value

Valuation methods and techniques used for the purpose of measuring fair value have not been changed compared to the previous reporting period.

Level 3 fair value measurements

The Group's financial assets and liabilities classified in Level 3 uses valuation techniques based on significant inputs that are not based on observable market data. The financial instruments within this level can be reconciled from beginning to ending of the financial period/year as follows:

	31 March 2023 (Unaudited) KD	31 Dec 2022 (Audited) KD	31 March 2022 (Unaudited) KD
Opening balance	271,945	464,747	464,747
Disposals	-	(31,642)	-
Change in fair value recognised in profit or loss	-	(161,160)	25,239
Closing balance	271,945	271,945	489,986

The Group's finance team performs valuations of financial items for financial reporting purposes, including Level 3 fair values, in consultation with third party valuation specialists for complex valuations, where required. Valuation techniques are selected based on the characteristics of each financial instrument, with the overall objective of maximizing the use of market-based information.
